

Insurance For Window Cleaners

Versatile Insurance provide one of the very few websites www.versatileinsurance.co.uk which is fully interactive and can both quote and also arrange cover any time of day or night for a wide range of policies including Public Liability. Click here to jump to the right page https://www.cetapremium.com/quote/next.asp?type=liability&sub_type=trade&start=new&membershipnumber=997729028

Public Liability insurance covers you when someone else's property is accidentally damaged (but not the glass you are cleaning) or hurt someone not connected with your business. In this age of "no win no fee" solicitors, you should consider this to be a very important purchase, despite these "credit crunch" times.

We all know that cheapest is not always the best, and so instant comparisons are made between 5 leading insurers (for Public Liability) and full information is provided about each product.

Also, because Versatile's overheads are so low, several of the insurers quote premiums lower than can be obtained through your local broker.

Premiums start from just £54.62 (for the year!!!) for one worker requiring just £1,000,000 limit of liability with a low excess of £100.00.

Optional cover is available with some of the insurers including *damage to property being worked upon* (Axa Tradesman only). In this instance "property" is not the house, office or shop that you are working on, but the pane of glass, frame or any other item being cleaned during the time you were cleaning it. This is usually excluded by Public Liability insurance policies.

Why would you consider this cover? Consider if you broke a window or scratched it with a scraper blade. You may have to foot the bill for replacement glass which can run into tens of thousands of pounds. The extra cover can be added for a small additional premium (although bear in mind the excess is higher for this type of claim).

If you are not confident dealing with websites, a team of experienced staff is available at normal office hours on a local rate number, 01837 658880
